## NON-FINAL ACTION

1. The applicant's Preliminary Amendment filed 02 JUN 04 has been entered. Following the entry of the Preliminary Amendment, **Claim(s) 60-64** is/are pending.

### 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that may form the basis for rejections set forth in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

or

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

3. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

### **Claim Rejections under 35 USC § 102**

**4. Claim(s) 60-64** is/are rejected under 35 U.S.C. 102(e) as being anticipated by Makrigiorgus [US 6,174,680(2001)].

Makrigiorgus et al. teach a composition of matter (i.e. Hu6800) comprising all of the structural constraint recited in Claims 60-64.

**5. Claim(s) 60-64** is/are rejected under 35 U.S.C. 102(b) as being anticipated by Affymatrix Technical Note (2004).

The Affymatrix Technical Note (2004) makes clear that a composition of matter (i.e. the GeneChip Hu6800 Set ) as recited in Claims 60-64 was in public use or on sale in this country, more than one year prior to the date of application for patent in the United States. Note Column 2 on p. 1 wherein it is taught that the first commercially available array was the human GeneChip Hu6800 Set released in 1998.

### **CONCLUSION**

**6. Claim(s) 60-64** is/are rejected and/or objected to for the reason(s) set forth above.
